FEC : ITS ORIGINALITY

This Institution for over 80 years, was assigned the task of creating conditions needed to prepare students for professional life and social responsibilities. FEC also aims to give young people an Opening, complemented by human and Christian elements in their university education.

The students therefore need to meet three basic requirements:

- ❖ **Teamwork Spirit**
Though individual work is essential, we expect students to take advantage of good teamwork opportunities which are offered by fellow students. FEC welcomes students of all nationalities, from all disciplines and all academic levels.
- ❖ **Home Spirit**
All students must contribute to the friendly atmosphere and warm hospitality available within the home. Conviviality is a part of FEC's tradition. This tradition depends on everyone in FEC in order to make it a Home where we experience our convictions.
- ❖ **Spirit of Responsibility**
A good project without structure nor without obligation is never realized. Student participation in the round- tables, conferences, dinners and discussions, including the social/cultural or religious activities organised by FEC makes them more responsible and accountable.
